

A.I OLYMPIAD Process JUNIORS (Class 1-5)

Task:- To create an AI generated Image using AI.DO platform, with the help of your teacher, on the given topic.

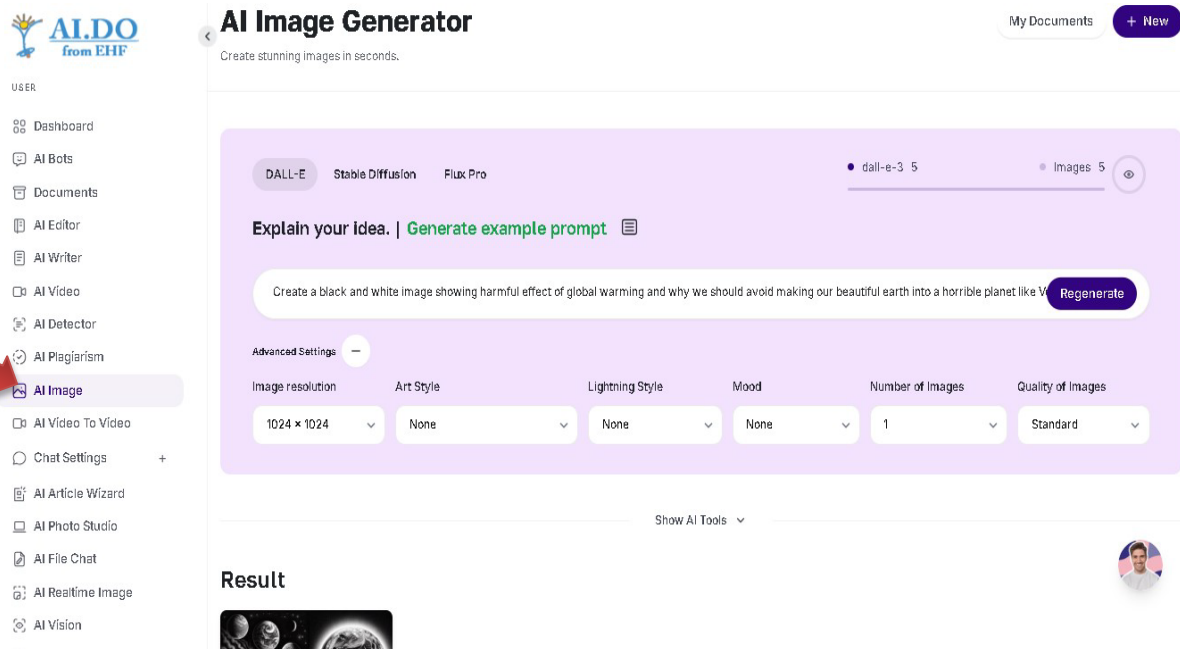

Sample Topic:- Global Warming .

Step by Step Process:-

1. Go to the AI.DO website www.debulabs.com or scan the QR code given

2. Log in using given ID and password (PW) with the help of your teacher. Here ID is junior@ehf.com and PW is 12345678 .
3. Click on the AI Image. See Screenshot

4. Here we use the prompt (input given to A.I. to tell what we want to do).
“Create a black and white image showing harmful effects of Global Warming and why we should avoid making our beautiful planet ‘Earth’ into a hot and horrible planet like ‘Venus’.”

5. You can improve your image using advance setting like :
 - a) Image resolution
 - b) Art Style
 - c) Lighting Style
 - d) Mood
 - e) Nos. of image (Keep this as 1 or max 2. Please note you are given a max of 5 image credits).
 - f) Quality of Image
6. Since you are given 5 credit tokens, if you create multiple image we will choose the best one.
7. The image(s) you make are auto-saved.
8. Do not change the given PW as we will login and evaluate. If you do the account be inactivated / deleted.
9. Simple screenshot of final output is shown below
